◎ Toulouse, France

PROFILE

> **First-year engineering student at Toulouse INP–ENSEEIHT in Computer Science and Telecommunications, following two years of CPGE (MPSI/MP) where I ranked in the top 5% of the CNC. I have a solid foundation in mathematics, algorithms and programming, strengthened by an independent TIPE project on Rubik's Cube solving algorithms, combining mathematical analysis and simulation. Drawn to data engineering and cybersecurity, I am seeking an internship in a stimulating environment where I can apply my analytical thinking, develop practical technical skills and contribute to concrete projects.**

EDUCATION

Toulouse INP–ENSEEIHT 2026–2029

Engineering degree, Computer Science and Telecommunications

First-year engineering student; relevant coursework to be specified.

Lycée Mohammed V 2024–2026

Preparatory Classes (MPSI / MP), Casablanca, Morocco

Ranked in the top 5% of the National Competitive Examination (CNC).

Lycée l'Ambassadeur 2023/2024

Baccalauréat, Mathematical and Industrial Sciences

Graduated with highest honours (Mention Très Bien).

PROJECTS

Rubik's Cube Algorithm Engineering

Independent TIPE project

- Studied how cyclic permutations and mathematical structures can be leveraged to improve the ergonomics of Rubik's Cube solving algorithms.
- Carried out the project independently, combining mathematical analysis and simulation to evaluate and compare algorithmic approaches.
- Results: the outcomes obtained were consistent and satisfactory.

SKILLS

Programming

- Python
- C
- Ada
- SQL
- Bash

Data & scientific computing

- NumPy
- Matplotlib
- Statistics

Mathematics

- Linear algebra
- Probability
- Graph theory
- Modular arithmetic

Systems & tools

- Linux
- Windows
- Command line
- Git
- GitHub
- VS Code
- Vim
- Wireshark
- GNAT Studio
- MATLAB

Databases

- SQL

LANGUAGES

- French: C2
- English: C2
- Arabic: Native
